CASSETTE

THE IMAGE SYSTEM

A computer graphics package with a difference! In addition to providing the usual drawing and painting facilities **The Image System** allows you to zoom, move, copy, scale, rotate and even twist or fold your pictures in 3D space.

Pictures produced can be controlled from basic adding graphic flair to your programs.
The Image System even compresses pictures saving valuable memory space.

You will find an explanation of the features mentioned, and much more in the comprehensive manual which accompanies this program.
There is even a step by step exercise to take you through the all-important first half hour of using this program.

THE IMAGE SYSTEM LET YOUR CREATIVITY FLOW

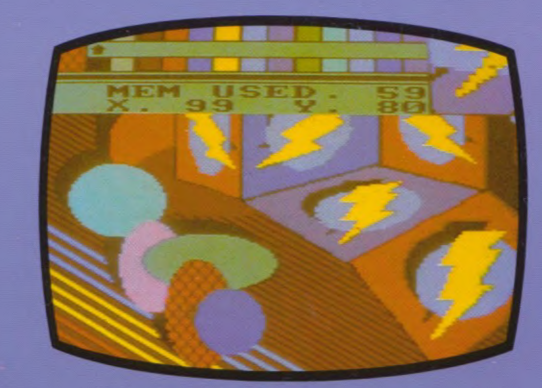

If this software is defective in any way please return to CRL for an immediate replacement.

CRL Group PLC, CRL House, 9 Kings Yard,
Carpenters Road, London E15 2HD
